Stomach Bitters

No. 26, South Second Street.

BAINT LOUIS, - - - - MISSOURI

This great Tonic has been introduced to the people of the Mississippi Valley for the past thirteen years with unbounded success and popularity.

There is nothing of the kind extant that equals it as a stimulant, an apetizer, or anti-ity-speptic. It is particularly adapted to mala-rious districts and as a

Preventative of Chills,

is not surpassed.

It is endorsed by the best chemists as the most efficacious, strengthening Tonic this country has ever produced, the value of which will be recognized by all who may use them. Private citizens of Arizona visiting St. Louis have expressed their convictions that it is pe-bullarly adapted to the wants of that Terri-tory, and needs only a trial to insure its speedy introduction there.

Orders addressed to THE WEST INDIA MANUFACTURING COMPANY will be

We may remark here that it is now alleged that the recent heavy money in France at this time to the showed his wisdom when, rather than person, and that not one of them sales on the part of the foreign banking firm were effected without the knowledge or authority of the princt. at the same standard of value (despite | This was the thought that promoted an autopsy in Bellevue Hospital, and pals of the firm in question, and were brought about by some misunderstanding on the part of a high official con- at 44 pence as when it sold there at in a friendly and gracious spirit the nected with the house. We simply state this for what it is worth.-Enginearing and Mining Journal.

The Dressed Beef Inquiry.

(Live Stock Indicator.) Although the senatorial committee that has been investigating the dressed beef business has not yet concluded its labors, it is pretty well understood that a majority and minority report will be evolved out of the inquiry. It has been the sole purpose of Synator Vest to demonstrate the fact that the high price of beet in this country was bine, and that the latter is rapidly ernshing out all incentives to competition in the cattle trade. Figures have been secured showing that Chicago dressed beef can be purchased at a cheaper figure in the markets of. London, Liverpool and Manchester than it can be had in the butcher shops right under the shadow of the Union stock yards. Schalor Parwell, however, is not in accord with his Missouri colleague on this matter. He is of the opinion that over-production is the root of all the evil. The increased cost of beef to the consumers is explained by the senator by the fact that the American people will only cat the "choice cuts." Everybody, he says, wants there cuts, the poor being as fastidious as the rich. According to this argument only the riff-raff of American beef finds its way across the Atlantic. Senator Farwell also holds that the members of the combine were perfectly right in refusing to make their private business public property, and he will be heard to that effect when the senate reassembles in Newsburg.

Army Descritons

The large number of men who have deserted from the army, especially in the first year of their enlistment, has been often pointed out. Gen. Schofield and Adj. Gen. Kelton have given the matter considerable attention lately, and have received suggestions from a number of the leading officers in the service as to the proper remedy to be applied to correct this growing evil. A court of inquiry is in session at Jefferson Barracks, Mo., for the purpose of examining into and reporting upon the cause of the large number of desertions at that post during the past year. The board consists of Lieut Col. H. W. Lawton, Inspector General, and Capt. Frederick Heebstein, 21st Infantry. While this court is ordered exclusively to inquire into the causes of the large number of desertions at Jefferson Barracks, it will also go into an investigation of the entire subject, with a view of arriving at the best located in the United States and five possible remedy for an evil which, if not corrected, will sooner or later cause much trouble in the service. which sells 465,193 barrels a year. Both Gen. Scholeid and Gen. Kelton Two of the five American breweries are thoroughly convinced that the are in Milwaukes, one in New York time has arrived for taking some de- and one in Philadelphia.
